Possible Event Display Tasks for Undergrads

November 17, 2014

1 Hardware
   1. Fix mounting of power supplies.
   2. Sand/varnish/paint/otherwise beautify wooden housing.
   3. Update poster.
   4. Mount poster in such a way that it is removable.

2 Software
   1. Change timing of events so that the duration of each hit is proportional to its low ToT (time over low threshold).
   2. Make a slideshow of HAWC-related material to accompany the display at outreach events.
   3. Set up feed of data from the HAWC site to the event display.
   4. Make event display run Monte Carlo on startup.

3 Other
   1. Take a new video of the Event Display.
