

Neural Network (NN):

A. Stages:

- Training & Verification: 80 %
- Testing: 20 %

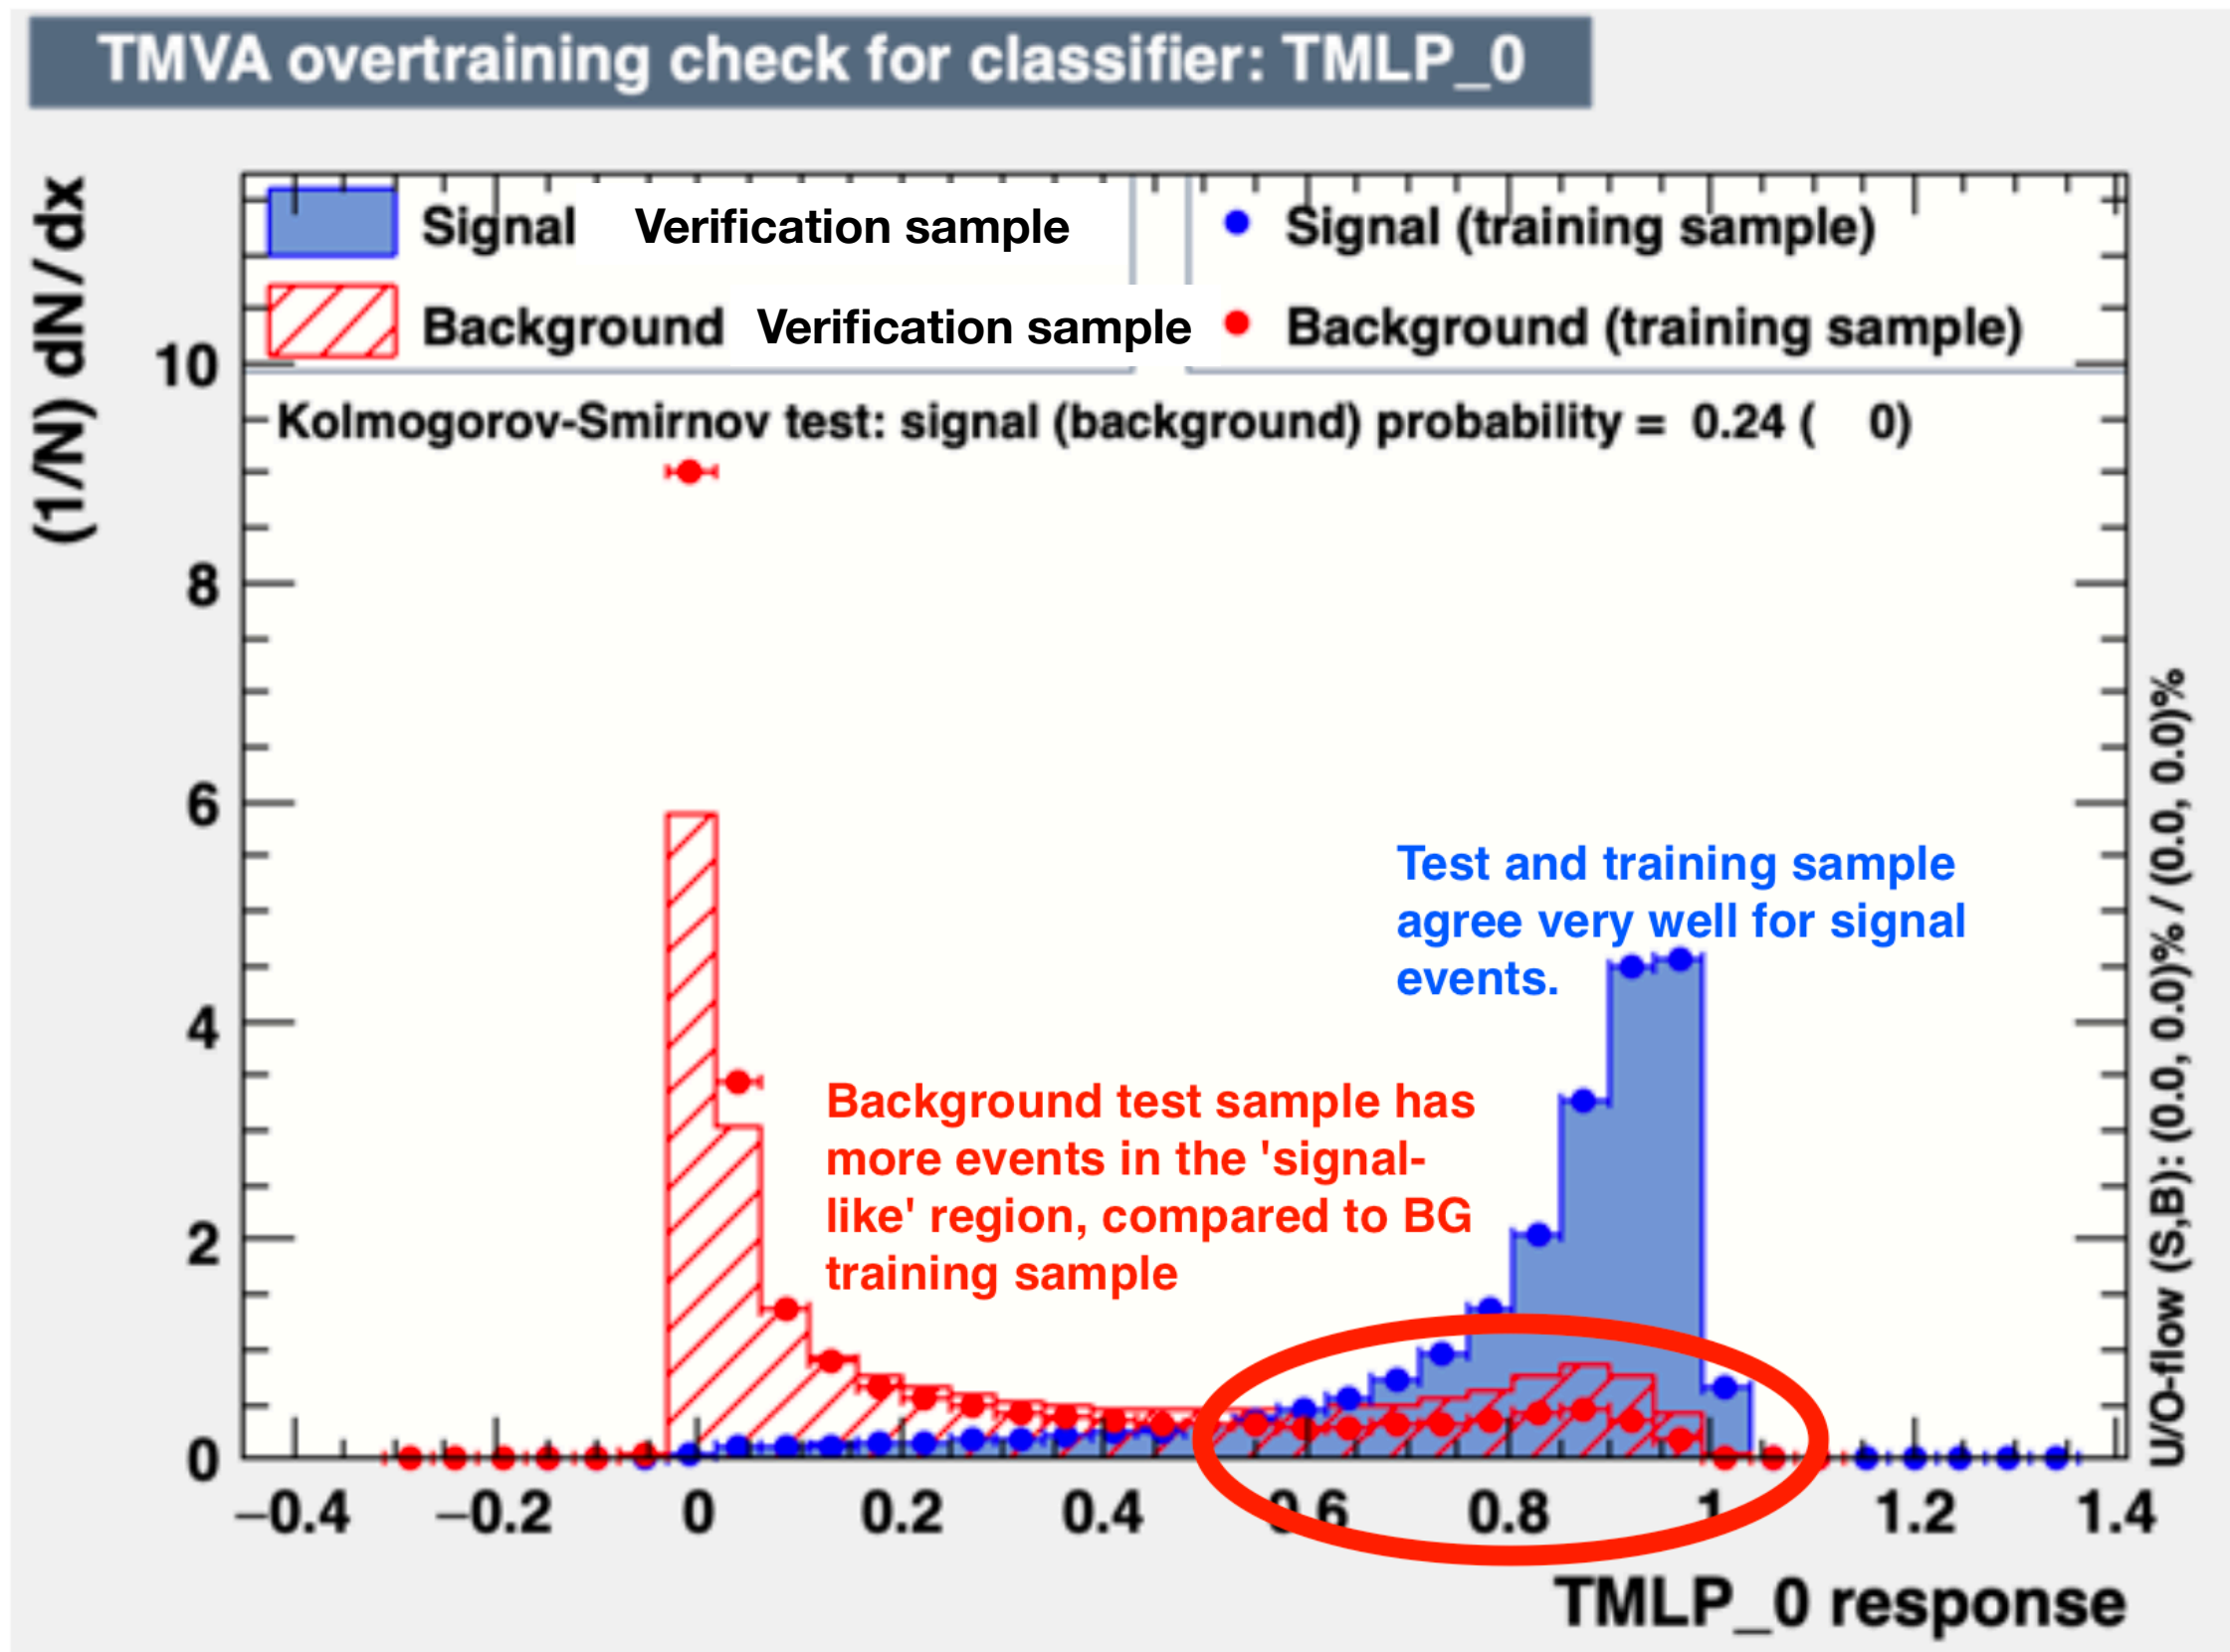

C. Architecture: 7 : 10 : 10 : 1

D. Models trained with TMVA:

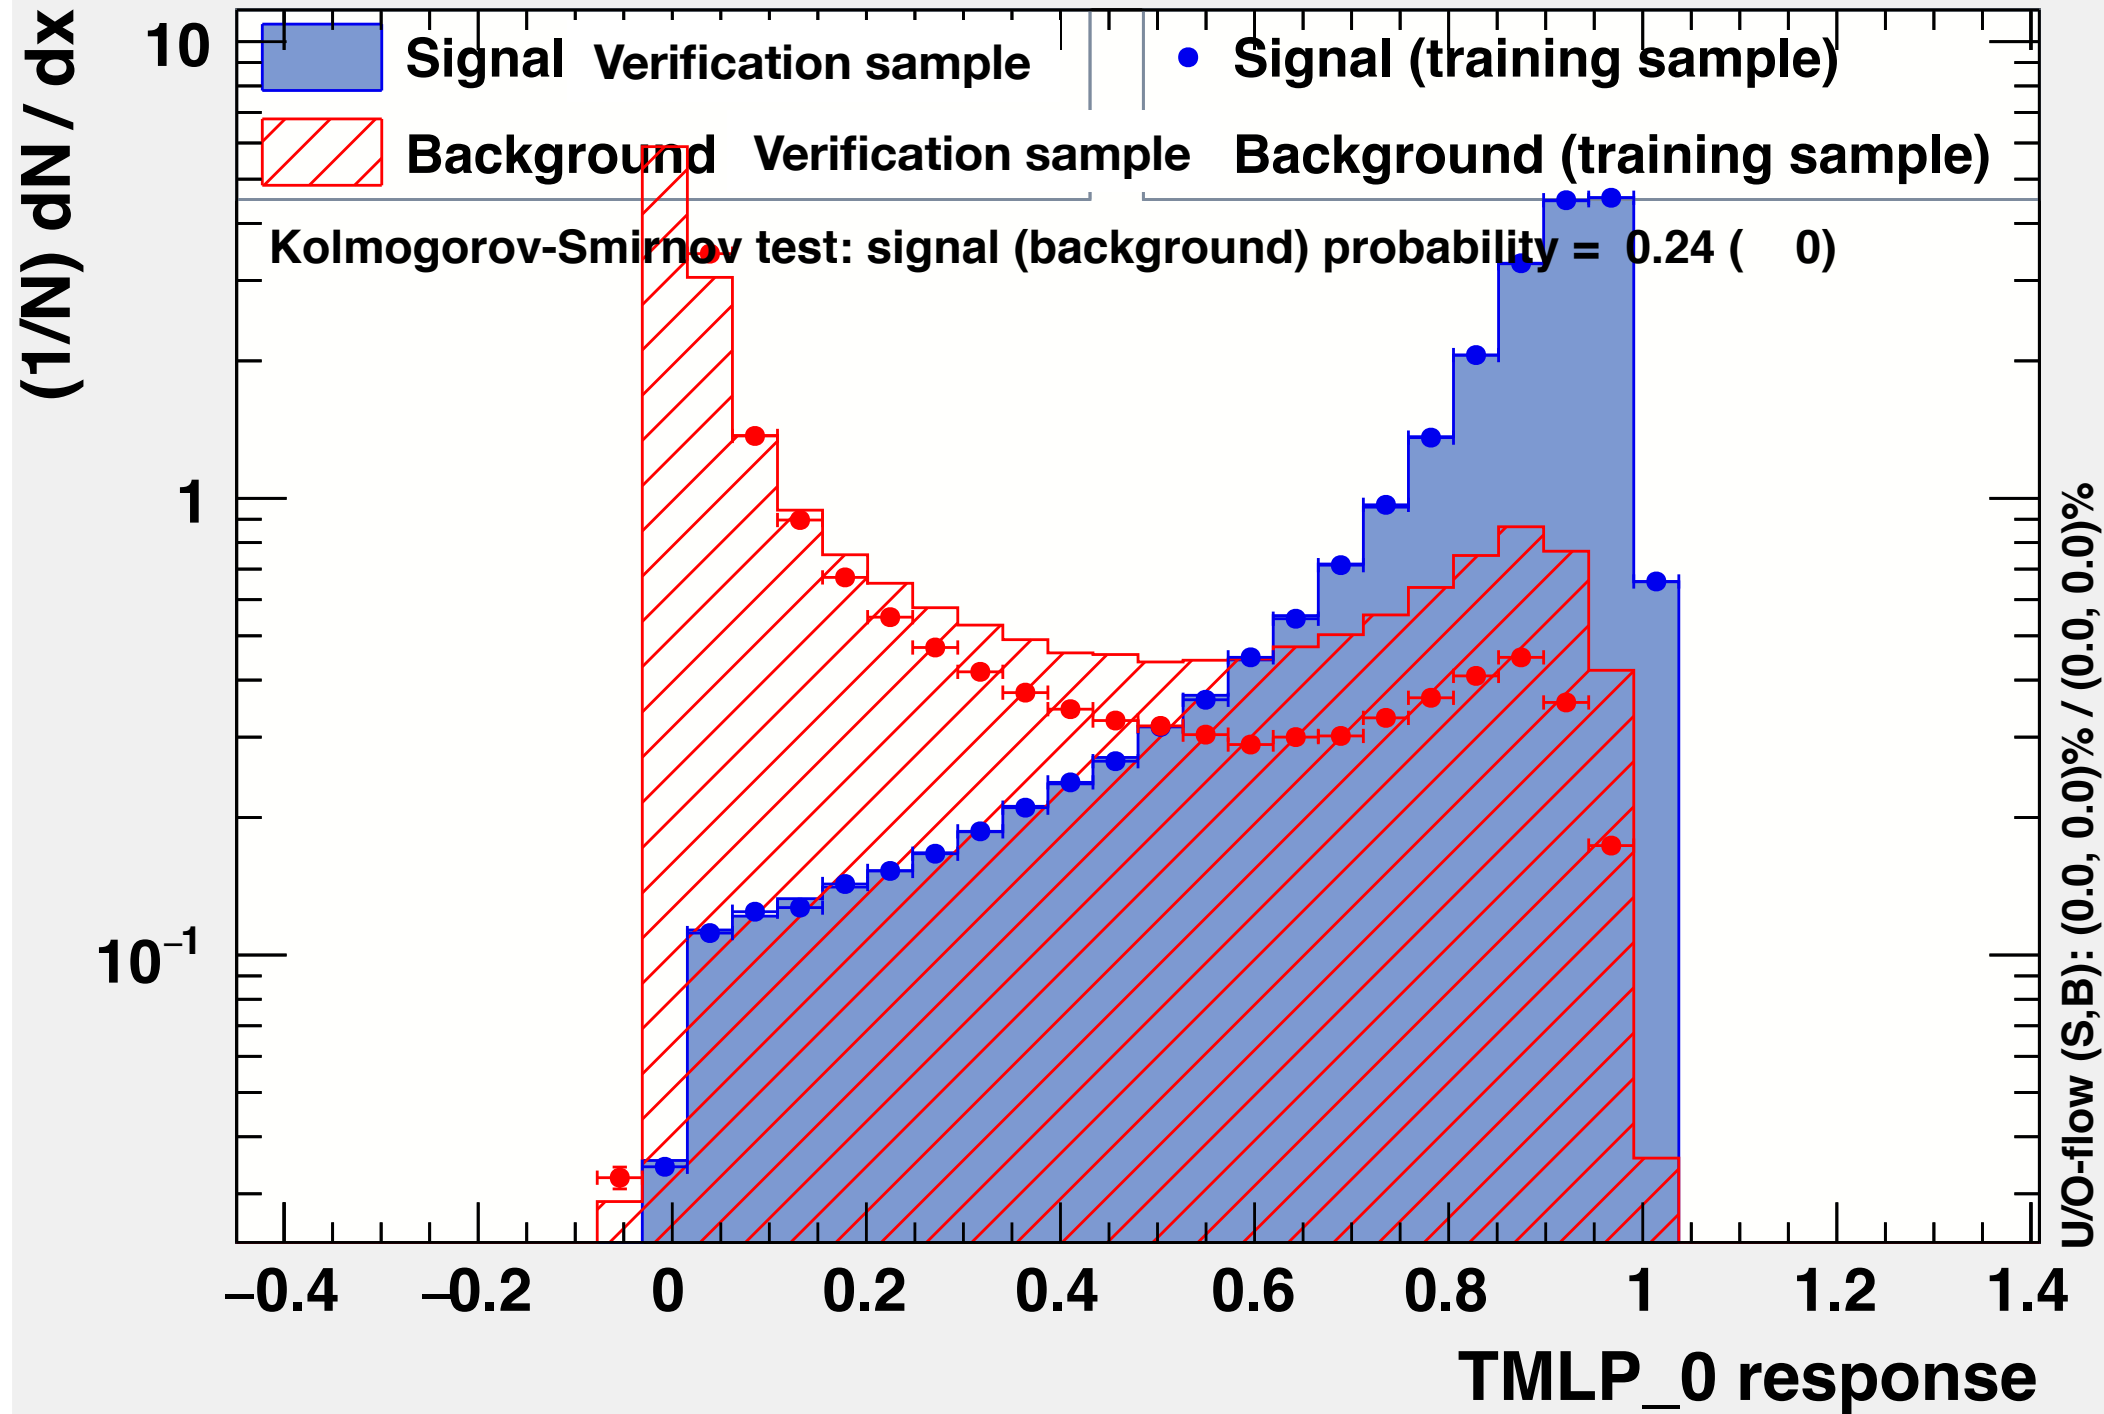

- Low fbin: 0.000 to 0.162
- Medium fbin: 0.162 to 0.485
- High fbin: 0.485 to 1.000

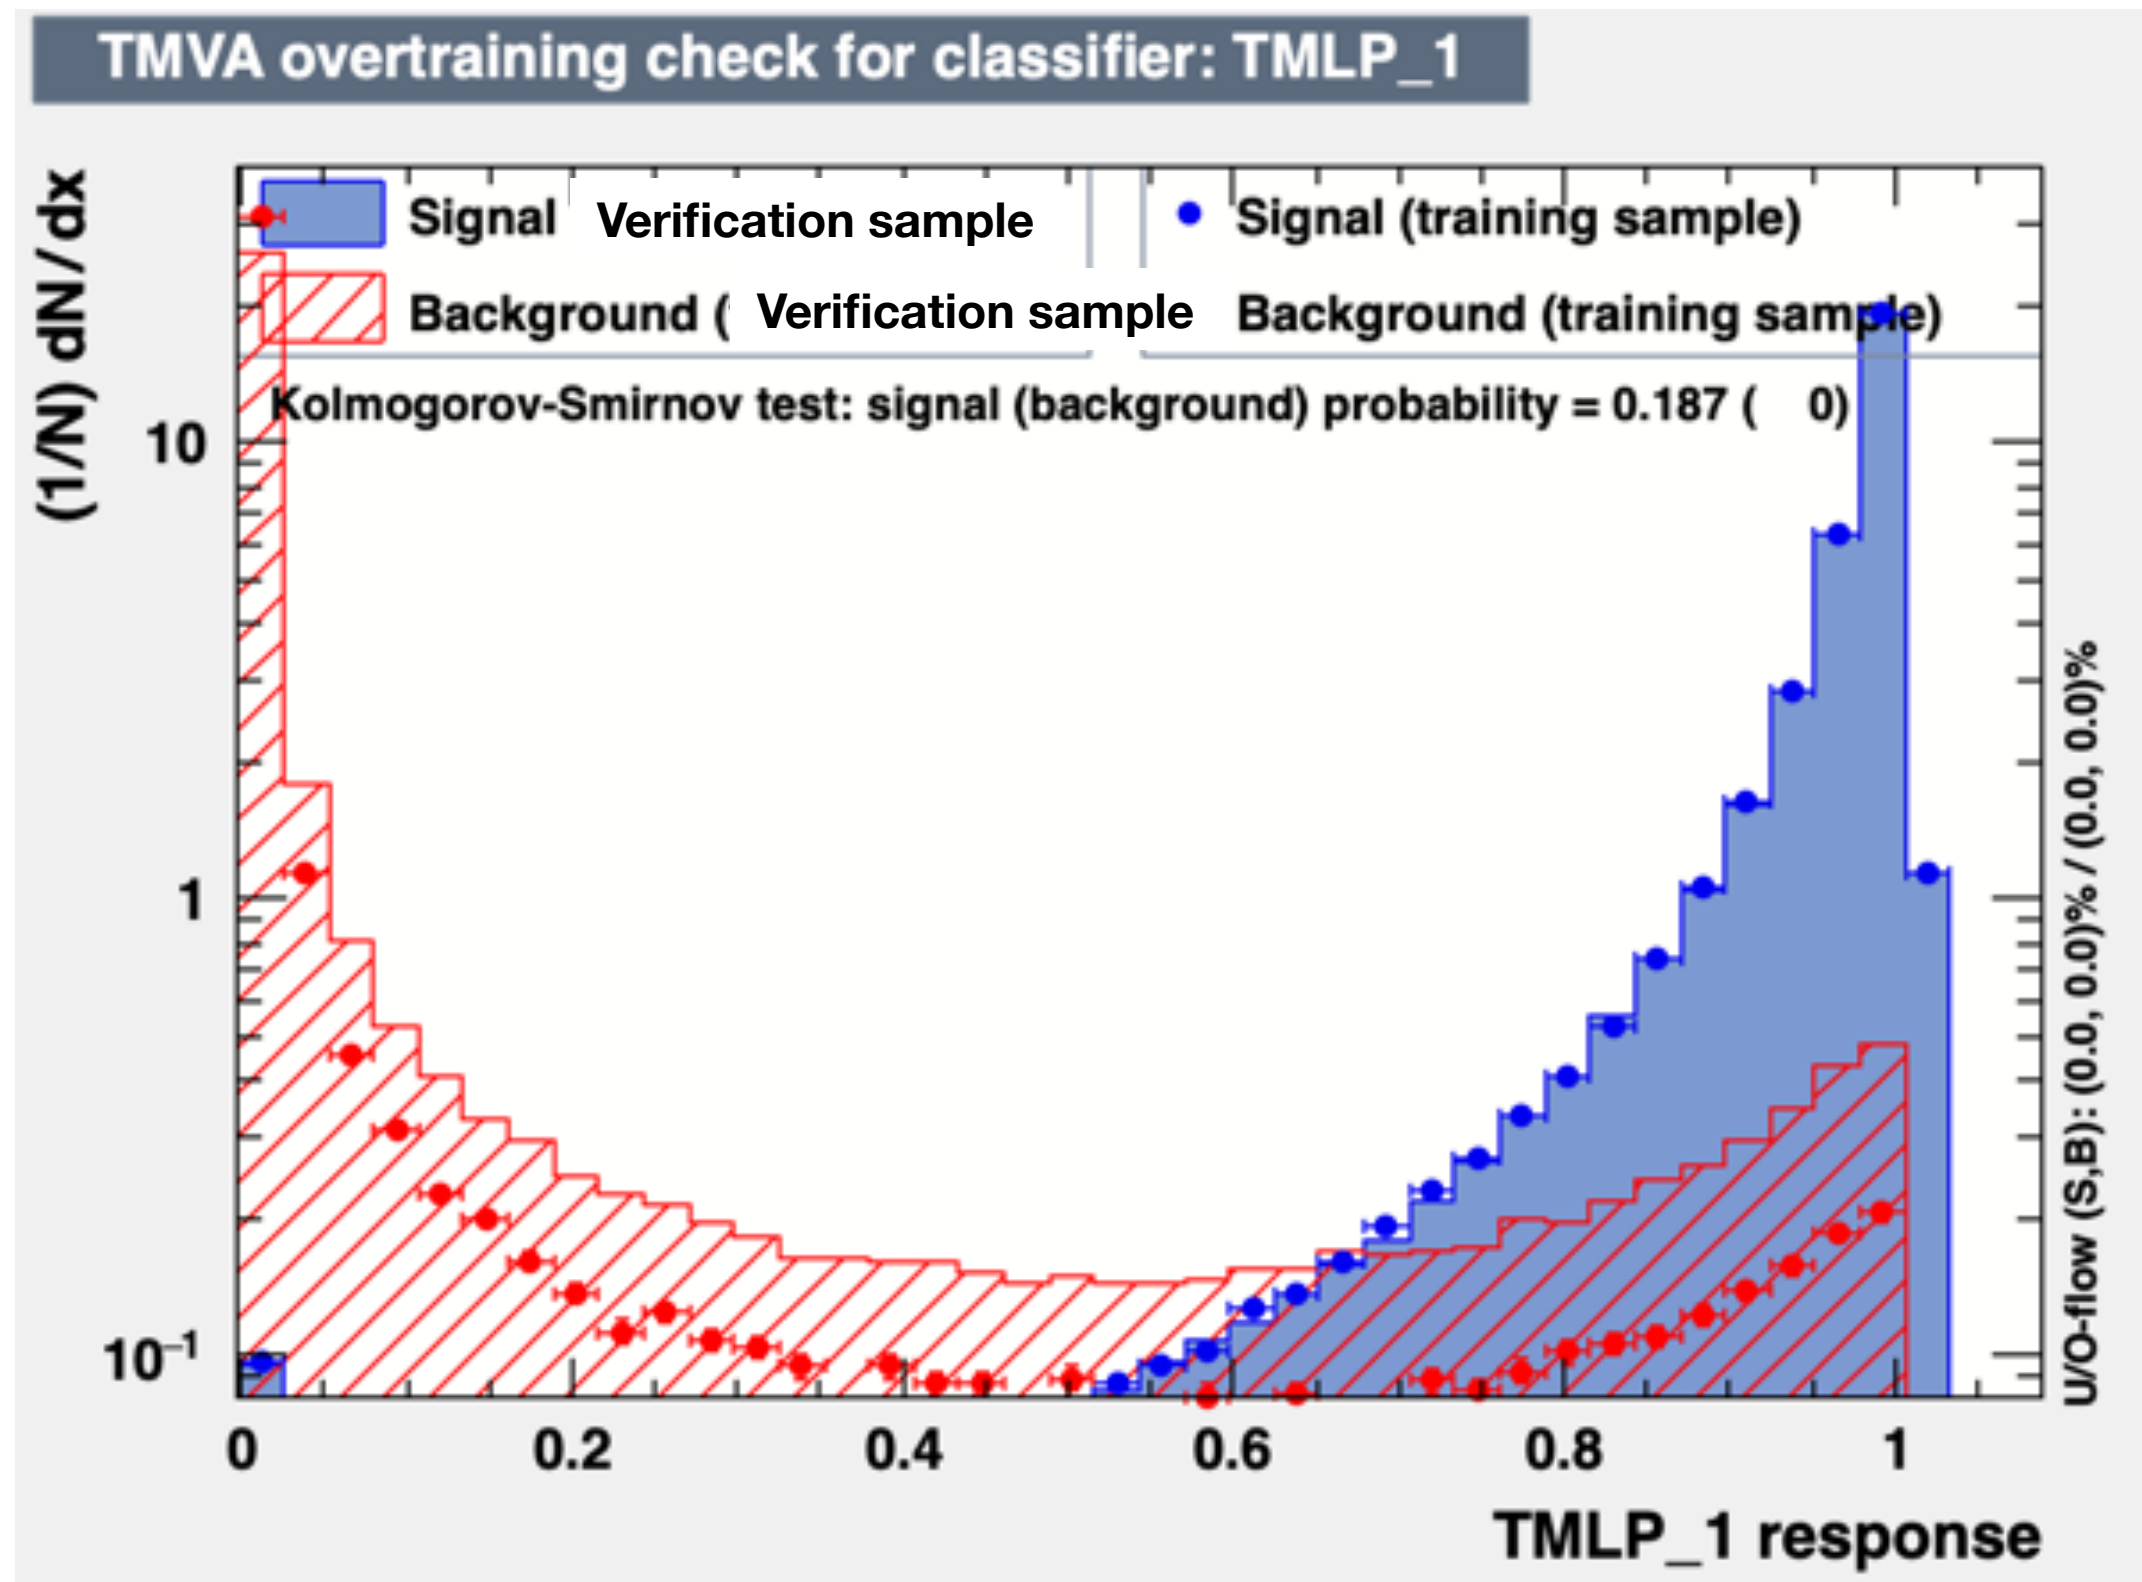

Finding the optimal cut

Low fbin

TMVA overtraining check for classifier: TMLP_0

TMVA overtraining check for classifier: TMLP_2
